

A New Way of Looking at The Colville Project!

There will be myriad great things created by The Colville Project, so we've tried to create a simple picture of what we're planning at each stage. It's not an exhaustive list, just our headline items.

TCP Monthly Coffee Meeting

We need your feedback on the project so we're planning monthly coffee meetings across the area to allow informal discussion of your ideas, issues and comments. The first one will be in Colville in March, venue to be decided. If you would be willing to host a community meeting in your area please let us know. We'd like to meet up with as many of you as possible.
