

April - May 2020

The Colville Project team want to assure you that we are still working in self-isolation and are finishing our collation of the wealth of feedback received during and after the community workshops. You can still contact us via our website and Facebook page and we will be posting updates as they arise.

We had to postpone our AGM but we'll be rescheduling once we see how the lockdown plays out. And speaking of the lockdown, TCP aims to support and strengthen community now and in the future so to that end we urge you to follow the recommended guidelines for self isolating, particularly social distancing, and to support your whānau and neighbours where possible.

Remember to smile and be kind, we are all in this together.

Kia kaha, kia maia, kia manawanui!
